*"I value good customer service and I felt it was important to forward this feedback to the company. Tom made this process easy and smooth and answered all questions on our end. Tom even suggested some training tools for our employees in order for our company to become efficient in recycling. It is difficult to find valuable people who truly make a difference with a client, and Tom did exactly that. CleanRiver will definitely be recommended to all our business partners. The bins are phenomenal and arrived earlier than expected. We are now in the process of placing our New Recycling Bins in the appropriate locations. Thank you CleanRiver for the value you put in customer satisfaction!"*
